Pomegranate Facial at Delicious!

We often cake our face with chemical-based moisturizers when our skin feels dry from the cold weather. Stay natural this winter with an Anti-Oxidant Burst facial (¥750 / 80 minutes) from Delicious!, a beauty studio that uses only herbal and fruit products. The treatment provides instant detoxification and anti-aging protection for this sensitive season. Using more than 20 natural ingredients including pomegranate, red grapes, flaxseeds and organic pumpkin seed oil blended one day prior to your visit, this luxurious 17-step ritual is a truly organic experience. ■ HM
